

NL61 Beat Update

In April we set a priority around the increasing vehicle crime within Thurmaston.

We have worked with partner agencies, the local community by signing residents up to NH Link to reduce the crime. We have increased patrols and worked with our response colleagues to offer 24/7 coverage. We have used social media and the use of leaflets to educate and raise awareness of vehicle crime such as the ways to theft from vans.

For the last few months we have had a beat priority around youth related crime. This followed a couple of incidents on the central park in Syston. Two individuals have been arrested in relation to this and face charges and the other youths are being dealt with through the incremental approach to ASB with partner agencies, youth offending and school assistance.

GOODBYE TO PC 2143 Sbah Malik

During May we said goodbye to PC Malik as he left Leicestershire police to join Nottinghamshire Police to continue with his career.

Sbah will be missed by many colleagues here within the force but especially by the beat team in Charnwood east.

I am sure you will all join us in wishing PC Malik well and all the best for his future.

Message from Sgt Wharton

If you want to help us identify our priorities for next month, please provide us with information about the people or issues that cause harm in your local community or indeed the places that seem to attract problems. We will take action and work with other agencies to problem solve your concerns

We will be carrying out random speed checks throughout the Charnwood east area during the next few weeks in response to your concerns and support for this part of our work.

The team over in Charnwood East would also like to invite all its residents to sign up to neighbourhood link, here residents can receive the latest news, updates and events information direct from us and it is also a platform where you can share information.

REGISTER TODAY: www.neighbourhoodlink.co.uk
